Re: US EPA Action Memorandum Amendment – Jorgensen Forge Outfall Site, Lower Duwamish Waterway Superfund Site, Seattle, Washington

Dear Mr. Dyer and Mr. Ernst:

Attached is the US Environmental Protection Agencies signed Amendment to the Action Memorandum for the Removal Action at the Jorgensen Forge Outfall Site of the Lower Duwamish Waterway Superfund Site. The EPA is willing to consider that the 40-42' bgs sample showing PCBs at approximately 2 ppm was potentially "drawdown," as opposed to an area of contamination, and that post excavation sampling which will ultimately be developed will be consistent with approaches taken at other Lower Duwamish early action areas and further confirm the nature and extent of contamination at depth requiring cleanup.

The EPA expects that the ASAOC will be imminently signed and a work-plan will be submitted within 120 days from signature of the settlement agreement.

Should you have any questions, I can be reached at 206 553 4092 or sanga.ravi@epa.gov. Inquiries from legal counsel may be directed to Richard Mednick, Associate Regional Counsel, @ 206 553-1797 or mednick.richard@epa.gov.

Sincerely,

Ravi Sanga
